Can You Help Delta?

Delta is a TERRIFIC girl in need of a forever home, and we're hoping this is her lucky month. She loves people and is great with kids, other dogs, and all people. Why hasn't she been adopted yet? Because there's less of a demand for black adult dogs, even when they're as wonderful as our Delta.

A Word From Delta

Hey Y'all! I'm Delta, and I'm a super sweet, happy girl. I've got velvety soft ears and a laid-back disposition, and I'm one of those terrific dogs who will do great with any family as a companion. I'm about 2 1/2 to 3 years old, and I've got great social skills from my time at the ranch meeting all kinds of dogs and visitors. I'm spayed, micro-chipped, in great health, crate-trained, and house-trained too! So I've got a leg up on those accident-prone pups—so to speak.

I'm a medium-sized girl, about 55 lbs. and all done growing. I love belly rubs, and I'm not a hyper sort of Lab. I'm smart and affectionate, and I'll have lots of fun learning tricks and figuring out your routine. I'm ready for my forever home and family, and I promise I'll show you how grateful and sweet I am every day.

Dogs Rule

At All About Labs, we believe that dogs are just the best. They teach us just as much as we teach them, and they help people to live longer, healthier lives. We are surely better because of them, as anyone who's lived with a dog knows.

We're surrounded these days by issues—hunger, war, the environment

—that can feel insurmountable. But animal cruelty is one problem that we can actually do something about. We know, because we save lives each and every day.

Thank you for supporting All About Labs, and please continue to spread the word about rescue. If you'd like to get involved, please refer to our website or email us.
